Profile

I am a Postdoctoral Scholar at the University of Washington's Center for an Informed Public. My research focuses on the interplay between polarization and misinformation on social media, and has been published in top-tier conferences like ACM WWW, ACM CSCW and AAAI ICWSM. In my current research agenda, I analyze misinformation and polarization through the lens of misperceptions about ground realities, outgroups, etc.

Education

University College London (UCL), Department of Computer Science **London, UK**
PhD Computational Social Science (Center for Doctoral Training in Cybersecurity) *Sept 2020 – Oct 2024*

Thesis title:

Polarisation Dynamics and Emergent Information-Seeking Behaviours on Social Media

Examples of methods used:

- Machine learning classification (node classification using Graph Convolutional Networks, etc.)
- Community detection in online networks (Louvain algorithm, cluster analysis, etc.)
- User/community matching based on similarity metrics (cosine, Mahalanobis distance, etc.)
- Natural language processing (text classification, sentiment analysis, topic extraction, named entity recognition, etc.)
- Advanced statistical analysis (mixed-effects regression, structural equation modeling, etc.)
- Probability estimation and simulation (Markov Chains, binomial regression, etc.)
- Surveys, behavioral Randomized Controlled Trials (RCTs), and intervention testing

Advisors: Professor Emiliano De Cristofaro and Dr Tristan Caulfield.

Durham University, Department of Psychology **Durham, UK**
MSc Behavioural Science, Distinction (79.20)/GPA 4.27 *Sept 2019 – Sept 2020*

Cohort top performer

University of East Anglia (UEA), School of Psychology **Norwich, UK**
BSc Psychology, First Class Honours (78.85)/GPA 4.25 *Sept 2016 – July 2019*

Cohort top performer

Employment

University of Washington, Information School **Seattle, WA**
Postdoctoral Scholar (Center for an Informed Public) *Jan 2025 –*

Supervisors: Dr Martin Saveski and Dr Emma Spiro.
